SALE HORSES We are often asked if we will sell a particular horse. We love them all, but our business is to raise, train and sell our horses. So, as much as we love them and enjoy showing them, yes, we will sell them. We are very proud of the cutting bloodlines and the training that our horses receive. Bonina horses are trained to have respect and confidence. They are happy horses with tremendous talent. When selling, we make every effort to match horses and riders. If you are lucky enough to get a Bonina horse, you will love it!

TRAINING PROGRAM Perfect Practice makes Perfect. That's why we work horses thoughtfully and daily. The more days in the saddle, the better a horse understands his job and the better his confidence will be. It starts with hours on the ground making baby steps. Then, to teaching knowledge under saddle working flag and cows. Next is exposure to guests and their horses. The three-year-old year educates the young horse by hauling to shows and riding in new arenas. The training program is complete when colts comfortably move across the cutting pen, watching the cow, waiting for it to try to dart back to the herd. It is enormously rewarding to train a young horse to perform in the cutting arena. What an exciting journey for the horses and their trainer!

A STRONG FOUNDATION STARTS INSIDE THE HORSE All horses raised at Bonina have been consistently supplemented with one of Bob's formulations of vitamins and minerals. The product, **FREEDOM**, is fed to broodmares and youngsters. When fed to pregnant broodmares and colts throughout their lives, the incidence of DOD (Developmental Orthopedic Disease) in young horses is greatly reduced. To our knowledge, no horse raised at Bonina has ever been inflicted with DOD. All horses stabled and in training at Bonina receive Oxy-Equine for enhanced performance.

BONINA SHOW HORSE INVENTORY

- . At some point in their career, these young horses may be placed in new homes.
They will be shown throughout the season at cuttings in Washington ...
Or can be seen at the ranch in Eltopia, WA.

I like all of these fillies - and truthfully, I believe they all will become very fine cutting horses. Each day after working, I muse and think about which one gets the gold star that day. They seem to take turns.
